## Big Minstrel Show Coming November 27th

Friday November 27th will be "Away Down South" for Champion Community when the town will be infested with conny looking cons from everyone in the district. Four big performances are in preparation and with Len Davis and

## International Wheat Position Strong

(Searle Grain Report)

Another factor which is developing confidence in the present position is the general attitude towards Russia and that country's participation in the wheat market. During the fall of 1930 Russian exports were unexpected and disquieting. At the present time the wheat has a definite basis in experience for valuating the Soviet export programme, and there is less apprehension as a result of the uncertainty of shipments from that source. It is impossible to lose sight of the fact that over 13 million acres of wheat land are going out of production during the present cereal year in the U.S., the Argentine and Australia. This in itself is an important adjustment in productive capacity. But the real significance of low price levels is apparent when it is realized that 13 million acres represent the equivalent of the entire acreage expansion that took place in these countries, and Canada as well, during the period from 1923 to 1930, and reduces the acreages of these countries to the level of 1921. Continuity in the food supply of the world is necessary and there is little likelihood of adequate continuity of production at present price levels. Preliminary estimates of 1931 world wheat production, exclusive of Russia and China, indicate a reduction of from 175 to 200 million bushels compared with last year. World rye production, exclusive of Russia, is estimated to be at last 150 million bushels lower than 1930. The world supply of breadstuffs—wheat and rye combined, is estimated to be approximately 350 million bushels below last year.

## November 7th Is Poppy Day

A poppy day campaign will be held in Champion on Saturday, November 4th under the auspices of the Women's Institute. Mrs. J. T. Stephenson convenor. The public are asked to support this worthy effort on behalf of our crippled and disabled soldiers and any consideration given to the children selling poppies will be appreciated.

## Turned Oil Wagon Over in Ditch

A Baker's oil wagon was turned completely over in the ditch on Halloween night, making a difficult proposition to get it out. The Kirkcaldy victors must have got in some of their fine work. No one in this vicinity would be guilty of such a mean trick.

his orchestra playing "Southern Melodies" between acts a big time will be had. Mr. J. M. Moffatt is director of music, the Rev. Peter Dawson in charge of dramatics. Get your tickets early and reserve that seat for "Bo, da't will be some show."

## W.I. To Hold Armistice Dance

The Armistice Dance, under the auspices of the W.I. promises to be one of the big events in this line during the season. The ever popular Len Davis orchestra has been secured for the occasion. Admission \$1.00 per couple, extra lady 50c.

## Band Concert Sunday Night

The band concert to be given by the Vulcan Prize Band on Sunday evening is attracting attention from every quarter of the district. On previous appearances here the band made a wonderfully favorable impression, and the Community Hall will undoubtedly be crowded on this occasion.

## Hallowe'en Party Highly Successful

A very successful Hallowe'en party was held in the girl's basement in the public school on Friday, October 30. The basement was decorated for the occasion and the entrance was made into a very good resemblance of the headquarters of Captain Kidd with gangplank and all. The games were well managed and everyone thoroughly enjoyed them. In fact the party was one of the best. The next meeting of the Literary society will be held in the United church on Friday, November 13th at 2:30. The speakers will be in attendance and a dialogue and some skits are being arranged. These meetings are free to all and we would like to see a great many more attending them. A collection plate will be passed at the door but it is not necessary a large contribution, if any. Don't forget the next meeting November 13.

## Card of Thanks

Mrs. Wm. Ulrich wishes to thank her Champion friends for the many kindnesses and letters of sympathy received during her recent sad bereavement. Also special thanks both from herself, brothers, sisters and mother for the beautiful tribute of flowers sent to Bal four N. D. by the following: Champion Ladies' Aid, Champion W.I., Elks Lodge, Mrs. A. Caldwell, Mr. and Mrs. Frank Caldwell.

The November meeting of the Women's Institute will be held at the home of Mrs. R. E. Baker on Tuesday, Nov. 10th at 2:30 p.m. Speaker, Rev. Peter Dawson. Roll call, current events. Refreshment convenor, Mrs. Irl Ditto.

## Champion Theatre

Wed., Nov. 11th

## Ronald Colman

## IN The Devil to Pay

The Whimsical Romance  
of a Happy-Go-Lucky  
Adventurer.

## A Real Holiday Picture

The talking screen's most fascinating romance in a captivating heart escapee written by a past master of smart, sophisticated comedy. An audacious gallant laughs his way out of trouble, turns high society top-sy-turvy with his pranks and wows and wins the heart of a lovely beauty. Piquant entertainment more delightful than anything you've seen this season.

## Note

This will be The Ladies' Bargain Nite, and for an admission of 25c, all ladies can see and hear their favorite actor while we guarantee to be entertainment De Luxe plus.

## NOTES AND COMMENT.

The Village Council is to be congratulated on the measures taken to protect property on Halloween night. The result was so eminently satisfactory that it is safe to say similar precautions will be taken in succeeding years. Liberty to have a good time on this occasion easily leads to license on the part of the celebrators in which damage must be accomplished to satisfy the lust for what is considered pleasure. There were one or two instances in which decency was outraged, but on the whole it was more of an effort to keep up tradition than to inflict any serious damage. One party from an adjoining point received such a cold reception from the policemen that they were glad to return home for their celebration. The morning after Halloween instead of rousing the ire of practically everyone concerned, brought a feeling of relief that at last a check had been put upon wanton destruction.

Premier Bennett sees in the result of the British elections a chance to realize on his propositions, which were received so unfavorably at the last empire conference. He will likely find it easier to modify his proposals under present conditions, with a national government at the helm, until they are acceptable.

The hens that were so active all summer are now taking a rest with the result that eggs have jumped to values rather unenjoyable to producers. Storage is low in quantity than usual and it would appear that when the pullets do take hold in earnest a good price will be realized by their owners.

The improving price of wheat has been accompanied by advances in many lines of stocks. While it must be admitted the farmers will not benefit from the rise in price where their wheat was sold before it occurred, indirectly everybody benefits from a return of confidence in the future which was essential before any progress towards better times could be made.

While the rumor that Russia would export no more wheat this year or next has been dissipated, the fact remains that her crop this year was disappointing in quantity and was of very low grade. There is every reason to believe that the Russian menace to the wheat market is largely a thing of the past.

The recent death of Thomas A. Edison recalls the fact that he, like Alexander Graham Bell, inventor of the telephone, proved his first invention in Canada. Edison as a youth was a telegraph operator in Canada for the Grand Trunk

# Harmony School Pupils Achieve Distinction At Reid Hill School Fair

The shield given for the greatest number of points per pupil of any school was won by Harmony (second year).

The diploma awarded by the Department of Agriculture was won by Harmony.

The school of Agriculture scholarship for girls was won by Mabel Lawrence.

The prize of books awarded by the Department of Education was won by Mabel Lawrence.

Parade and School Yell—Harmony 3.  
Girls' high jump, 12 and under—Marie Matlock 1, Marion Stukart 2, Mabel Lawrence 3.

Running hop, step and jump, boys under 12—Stanley Matlock 2.  
Girls' high jump, 12 and over—Marie Matlock 3.

50 Yard dash, boys under 8—Jesse Matlock 2.  
50 Yard dash, girls under 8—Edna Close 2.

75 Yard dash, girls under 10—Beryl Close 1.  
100 Yard dash, girls under 12—Mabel Lawrence 1, Beryl Close 2.

100 Yard dash, open class, girls—Marie Matlock 3.  
Boys' high jump, 12 and under—Stanley Matlock 3.

Recitations, grades 3 and 4—Marion Stukart 2.  
Best for threshed wheat (special) Victor Leback 2, (81.50)

Winner of A. M. Terrill fern—given for greatest number of points in sewing—Marie Matlock.  
Grade dairy heifer, (paid feed) Lund's Morocco Gas (5 gallons) Mabel Lawrence.

Beets—Marie Matlock 2, Gerald Matlock 3.  
Parsnips—Stanley Matlock 2.  
Turnips—Edna Close 3.

Composition (grade VII and VIII)—Mabel Lawrence.

Geography (VII) Mabel Lawrence 1, Marie Matlock 2; (high school) Helen Lawrence.

A number of points were won from 4th and 5th prizes which are not mentioned.  
railway (now the Canadian National) and it was while so employed at Stratford that he perfected his first invention. It is an interesting coincidence that almost at the same time and only a few miles away at Brantford, Ontario, Alexander Graham Bell was developing his telephone over which the first conversation was held between Brantford and Paris, Ontario, on August 10, 1876.

**A Want Advt. Will Do It! With All Kinds of Job Printing**

# Our Best Thanks

To those who responded to our appeal for payments on subscription account. The amounts involved are small individually, but collectively become very important.

We still need the money very badly, so help us if you possibly can.

# You Need a Local Paper

The district is small when it is considered as a newspaper field, necessitating practically unanimous support to make its publication possible. The only flaw in this respect is an inclination to forget payment of subscription dues. A fair start has been made towards remedying this, and if this movement continues until the Christmas holidays there will be little left to complain of.

**Do It Now!**

**The Chronicle**

# Sees New Period Beginning In Expansion And Development Of Business In Western Canada

(By John F. Sweeting, Industrial Commissioner, Western Lines, Canadian Pacific Railway)

No change of particular note has taken place in the West during the last month. Conditions remain steady with varying changes in trade and some seasonal increases. The grain crop has been rapidly harvested and, while short in volume in the West, is of good grade. Advantage has been taken of the favourable weather to prepare land for the 1932 crop, and heavy rainfalls at intervals in different parts of the West have put the land in good condition for such operations.

One of the most interesting events during September was the visit of the Canadian Chamber of Commerce to the West and the holding of its annual meeting in Regina. The visit brought with it the opportunity of a full discussion on Canadian affairs and conditions, and enabled a number of the existing situation and prospects for future business to be gauged in a possible when considering only local affairs. It is probable that in paying so much attention to the debt side of current business, the value of the business, which apparently amount to something over thirty billion dollars not including undeveloped natural resources, has been overlooked. While such resources are not, of course, inexhaustible, they are factors in calculating the business of Canada for future years.

It is along these lines that present business must give heed to what it is going to accomplish in the next 10 years, rather than to its immediate outlook. Granted that the industrial situation has shown some retrogression and the crop of the West is below the average in quantity and price, the crop situation in Eastern Canada; the increase in the cost of living; the tourist business; lower production and living costs, must be factors in the building up of new business, which will show much greater gains, by reason or present reductions, when the upward movement starts. Perhaps the present is being watched closely to see the change of only the immediate situation is being envisaged, while not enough heed is being given to what the future holds in store.

Industrial enquiries coming into the West are of sufficient significance to give rise to the idea that a good deal of consideration is being given to this field as a manufacturing centre, and that if plans for actual development are being held up, there is no slackening in the investigations taking place by representatives both from Great Britain and the United States. Conversations which have taken place between the West and overseas representatives all look to the ultimate development of Western branches in a field that will yield good business in the near future, and which recognizes the necessity of business during the territory. While the present is difficult, there appears to be little doubt as to the expansion and development of the Western field in the not too distant future.

Undoubtedly, the low price of staple articles has produced a good flow of domestic business, but the many uncertainties in the present situation, notwithstanding low costs, are holding up the purchase of many products such as machinery, which means that the large industries are not getting the necessary support. Confidence is still lacking in relation to the situation as a whole, but constructive efforts are being brought to bear, on a situation which, by reason, so far as Canada is concerned, of its productive powers and ability to find new markets, soon get back to a trading level of characteristic proportions. This is essentially the beginning of a new period, within which consideration must be given to future business.

and preparation made to take advantage of it. A way out has always been found. The present situation demands a new situation. Its solution appears to be near.

By Annette

**LOADS OF CHIC HAS THIS SIMPLE DRESS MODEL.**  
The bodice has an entirely new cut and don't you like the clever shape of the revers? The skirt is slimming with its deep pointed outline at the front.  
Style No. 495 is designed for sizes 16, 18, 20 years, 36, 38, 40, 42 and 44 inches bust.  
And while it looks lovely in crepe silk prints, it also looks exceedingly well in simple woolsens.  
Then again for more dressy occasions, you can make it in a satin crepe or crepe de chine.  
Size 36 requires 3 1/2 yards 39-inch with 4 1/2 yard 39-inch contrasting.  
All patterns 25 cents in stamps or coin (coin preferred). Wrap coin carefully.

## War and Peace

**Mr. Guthrie Now Finds Count Bernstorff a Very Charming Person**  
Opinions differ in war and peace, it has been discovered by Hon. Hugh Guthrie, Minister of Justice and head of the recent Canadian delegation to the League of Nations.

While addressing the Canadian Club at Toronto recently, Mr. Guthrie mentioned that Count Bernstorff, German Ambassador to the United States in the early days of the war, had been a delegate to Geneva from his country. Recalling the "bitter feeling" that existed toward the German Ambassador after the outbreak of the war in 1914, and the rumors that he had been connected with the fire that destroyed the Canadian Parliament Buildings, Mr. Guthrie admitted "either he or I has cooled down since then. He now appears to be a very charming person."

## Some Profit

Farmers should not become too reckless with the big money they are making these days. Prices are liable to drop, and the first thing they know they will be facing hard times. Last week a Sauguenay township farmer shipped a cow to the Toronto market and after all expenses had been paid he was 87 cents in pocket on the sale of the beast.

## Winter Housing Of Poultry

Preparing Winter Quarters For Reception Of New Flock  
(By Arthur Ray, President of Saskatchewan Poultry Association)

The building which is used to house the poultry flock this winter, and which was occupied last year, will probably require some very important preparations for the reception of the new flock which is to occupy it. The house must first be made free from parasites and disease germs in order that the health of the birds may be maintained and that they may be enabled to function normally. To do this the inside walls, floor and equipment must be thoroughly cleaned and given a coat of white wash to which a disinfectant has been added. If the house has an earthen floor the top two or three inches should be taken out and four to six inches of fresh clay should be well tamped in. The yards too should be cleaned up and all rubbish and litter removed.

Broken window glass should be replaced and thin unbleached cotton should replace that which has been torn. The ventilation system should be examined. If the moisture given off from the lungs of the birds is not carried out of the house, write to the Poultry Department, University of Saskatchewan, Saskatoon, or the Poultry Division, Livestock Branch, Department of Agriculture, Regina, for information on ventilating a poultry house. The house with a straw loft should have the straw taken out and fresh straw put in each fall. The straw should be piled up to a depth of two or three feet.

The equipment should consist of one nest for each five or six birds, dropping boards placed about 20 inches from the floor and eight to 10 inches beneath the roasts; hopper for dry mash placed on a stand about 18 inches from the floor and receptacles for grit, water and shell.

When the young stock brought in from the range and placed in permanent winter quarters, care should be taken to avoid over-crowding them and the house should be left as open as possible during the first week or 10 days so that the change from range conditions to confinement will be gradual.

All undersized or deformed birds, or birds that are decidedly off-type or apparently diseased, should be removed from the flock.

**Gandhi's Goat Wins Prize**  
The goat which supplies Mahatma Gandhi with his daily draught of milk was awarded first prize at the English Dairy Show. As the blue ribbon was tied about its neck it was officially named "Mahatma." S. R. Whitney, an official of the show, told the judges at Royal Agricultural Society that the price of goats had gone up in England since the Mahatma arrived.

It is calculated that, including losses from revolution, famine and pestilence, the Great War deprived the world of no fewer than 40,000,000 lives.

## Facts About Baffin Island

Largest Island In the Canadian Arctic Archipelago

Baffin Island with an area of 200,000 square miles is the largest of the islands in the Canadian Arctic Archipelago. Its very size is the reason that though it was visited by Martin Frobisher, the great Elizabethan seaman in 1576, it has not borne the name Baffin longer than forty years.

Though the coast line was pretty well known by 1822 when James Ross, through Fury and Hecla Strait, there was still uncertainty as to whether various deep bays were actually bays and not channels dividing the island into several islands. Even Arrowmith in his map of 1854 is not sure on this point. His map gives no name to the main island. The southern portion near Frobisher Strait he calls "Meta Incognita," a name given by Queen Elizabeth following Frobisher's discoveries. Near Cumberland gulf the name Cumberland land is written, a name applied to the whole island on Foxe's map, 1635. The northern portion of the island Arrowmith calls Cockburn land, a name first applied to the island in 1822. Another name not shown by Arrowmith is Foxe had applied to the southwest portion of the island after his discovery of it in 1631.

The name Baffin, as far as the Geographic Board of Canada is aware, was first applied to the island on Admiralty Chart No. 863 published June 28, 1841. The island appears on Baffin Bay and its eastern shores their northern limit were first by William Baffin, the British explorer, when he penetrated as far north as Smith Sound on his fifth voyage in 1616.

## World Needs Less Fear

People Cross Bridges They Very Seldom Come To

Commenting upon the fact that 40,000,000 Americans are engaged in war, going to ball games and driving automobiles, the Kansas City Star says:

"Yet when they see the stock market breaking they set up a wall and say there must be a long, cold winter and maybe the suit of clothes will be for another year. Meanwhile an energetic and intelligent people is at work creating and exchanging goods, getting rid of surpluses and laying the foundation for a drive ahead. If the country could only forget the stock market for a month and work and live as usual, it would be surprised at its progress."  
There's a lot in this. If a lot of us would stop thinking about disasters that are going to come, but which never come, and would go about our daily tasks cheerfully and without fear, things would be a great deal better. We're all to find of crossing perilous bridges before we come to them.—Ottawa Journal.

**The Young Man**—"What time is it getting to be?"  
**The Young Lady**—"I don't know but it was Thursday when you came."

## Memo—Go Fishing!

The fishing season of 1931 may be drawing to a close, but a fisher's angler, packing wily his rods and flies with a sigh, has still many a fishing trip in store through the medium of "Memo—Go Fishing!" just published by the Bobbe-Merrill Company and written by Bob Becker, internationally known fisherman and for the past ten years editor of "Words and Waters" in the Chicago Tribune. Mr. Becker has played swordfish in the Pacific, hooked sailfin in the Gulf Stream; taken Dolly Varden trout from Alaskan waters, and angled for golden trout in lakes 11,000 feet up in the Sierras. From bass to barramundi, from trout to tuna, from pike to piranha, he tells of them all in many an exciting battle where sometimes he and quite often his quarry come off best. Canada is however, his predilection, judging by the amount of space given the Dominion in this book of 350 pages. The French River, Nipigon River, and Lake of the Woods region are the scene of many of his adventures and whole chapters are devoted to the wily musky and the lightning bass that have made these waters famous. Photographs shows last phase of a battle with a trout on the Nipigon River.

# Canada Holds Fourth Position In Per Capita Trade Among Trading Nations Of The World

## Standardized Pronunciation

New Form Of English Suggested To Be Called Anglo-American

If, in the future, there is to be a standardized pronunciation of the English language there is a possibility that part of the credit must be given to Hollywood. Since the advent of the talking films the defects of British and American speech have been increasingly apparent. Instances in which the pronunciations of the two countries differed radically have necessitated the making of both an American and an English version of the same film. This is the case in a recent picture containing frequent use of the word "ulterior," which is pronounced in the English manner in the English version and "ulterior" in the American version.

Now, questions Herbert Marshall, a London actor, why should there not be a new form of English embodying the best points of both countries' speech and acceptable to audiences in Australia as well? He suggests that the language be called "Anglo-American" and concludes that it is probable on the whole that "Anglo-American" will be more "Anglo" than "American" though he adds, Englishmen, of course, have to adopt many of the American words in various forms of expression, as they are now doing, and Americans in turn will have to adopt more of the English forms of courtesy.

Mr. Marshall illustrates the necessity of the standardization of the "a" sound on the part of the English by using the word "plaza." In its correct Spanish form, the word has the form sound of "plaza." Some Americans call it "plaza," and others "plazas." The affected English say "plazas." The ignorant say "plazas." There is a colloquial variation with an "ai" sound. The correct "Anglo-American" pronunciation would be between "plaza" and "plazas."—Christian Science Monitor.

## New Cancer Serum

Ontario Doctor Of Great Importance That May Be Of Great Importance

After 40 years of research into the causes and effects of cancer, Dr. J. E. Hett, of Kitchener, Ont., announces he has discovered a serum that diagnoses and also cures cancer. Dr. Hett claims he has used the serum on a curable number of presumably incurable cases with positively verified results.

The serum, according to Dr. Hett, is effective in the initial and advanced stages of the disease. Cases, however, that have gone into the final stages of the malady are beyond the help of the serum. The feature of the serum is its effectiveness in diagnosing the presence of cancer in the tissues either external or internal. According to the claim made by Dr. Hett, patients suffering from cancerous growths in all stages but the final, establish a definite reaction to the inoculation. There is no reaction to the serum if the patient is not a cancer sufferer. Dr. Hett states that inoculation with the serum arrests the growth of the malignant tumor and thus makes feasible the combination of surgery in the treatment as the tumor may be removed either before or after the use of the serum.

Dr. Hett is convinced cancer is of germ origin. He is now working on a media and method which he expects will render cancer germs viable.

## Giving All They Can

Int. of the unemployed of Walkerville, Ontario, who offer to give part of their spare time, gratis, to removing leaves and rubbish from the parks and boulevards of the town, to gathering in fruits and vegetables for welfare work while their wives sew and knit. When the workless help one another and show an appreciative spirit the heart of the community goes out to them.

## Not Safely In Numbers

Keeping his uniform trousers in pawn for nearly four months cost Police Sergeant Victor Lehman his job. He managed to get along by borrowing trousers from colleagues who were supposed to be off duty—one day the whole police force was called out. The sergeant had to report in civilian trousers and was dismissed immediately.

All is fair in love and war—or, in other words, during courtship and after marriage.

Many a wife has lost her mind by giving it to her husband in chum.

## Canada Continued to hold her position as the 4th trading nation of the world in 1930, according to the annual report of the Department of Commerce issued recently.

In per capita trade among the world trading nations the Dominion had risen from seventh position in 1913 to fourth position in 1930, while gradually moving down the scale in per capita volume of importations.

In production of printing paper, steel and asbestos, the Dominion led all others. Canada is the world's second largest gold producing country, and in output of wheat and zinc holds third place.

As far as exports are concerned the Dominion held the world in wheat, newspaper, steel and asbestos is second in the export of automobiles and wheat flour, while ranking high in wool, lumber, fish, copper, raw furs, etc.

Depressed values the world over reflected in the trade figures for the current fiscal year. Reports issued by the Department show that for the first half of the fiscal year—April to September—this country imported commodities having a value of \$318,221,772, while the value of exports was \$296,516,989.

Imports for the first six months of 1930 and the export values dropped by about \$125,000,000 lower than for the corresponding period of 1929 and the export values dropped by about \$125,000,000 lower than for the corresponding period of 1929 and the export values dropped by about \$125,000,000 lower than for the corresponding period of 1929.

Duty collected during the six months was \$61,312,307, against \$50,743,333, or roughly \$10,000,000 under collections for the same period a year ago.

## Wood Buffalo Park Map

Most Northerly Area Of Any Size Mapped In Canada

An aid in the administration of Wood Buffalo Park by the North West Territories and Yukon Branch of the Department of the Interior, there has just been issued by the Topographic Survey of the Department a map of the park on the scale of eight miles to the inch.

This part of the west of slave and Athabasca Rivers, partly in the province of Alberta and partly in the Northwest Territories, and comprises some 17,000 square miles. It is believed the present range of intensive settlement and as a consequence maps of this area have been greatly lacking in detail, thereby rendering more difficult the problems of administration.

The present map is designated as an exploratory edition only due to the fact that the information as yet is by no means complete and much further work is required to make it so. The mapping information was largely obtained by the use of aerial photography and to date this area is the most northerly one of any considerable size so mapped in Canada.

## In Honor Of Edison

Suggestion of a national holiday honoring the late Thomas A. Edison has been broadened into a proposed International Edison Day. The Board of Trade Legion Post, Chicago, which proposed the idea, received a communication from Peterborough, Ont., advocating a movement to have the League of Nations set a date for a world holiday in memory of the inventor.

## Dehydration Of Market Fruit

Canada imports annually almost 90,000,000 pounds of dried fruit. To find out whether or not much of this could be profitably replaced by Canadian grown stock the Department of Agriculture at Ottawa has been operating experimental dehydration plants in the provinces of Ontario, Nova Scotia and British Columbia.

Car handbills took a safe containing twenty shillings from London to Bristol before they discovered the fact. Nice to know a pound will go so far these days.

## Car Handbills Took A Safe

Car handbills took a safe containing twenty shillings from London to Bristol before they discovered the fact. Nice to know a pound will go so far these days.

"I have been trying a hair-restorer, with no success."  
"You must persevere."  
"I have—I have already tried six bottles!"—Page Adams, Verdun.

## U. S. IS WILLING TO ENTER INTO NAVAL TRUCE

Washington, D.C.—The United States desires the League of Nations it is willing to join in a world-wide truce on armaments, construction for a year. A note expressing wholehearted approval was addressed to the League at Geneva after a final conference between President Hoover and Secretary of State Henry L. Stimson.

State department officials said the message was not a lengthy one. This was interpreted as indicating that acceptance was not accompanied by numerous reservations.

This government is understood, however, to have specified that the holiday shall not apply to vessels already under construction, and that it affect only new construction which otherwise might have been started during the holiday year.

On this point the nations are reported to be in agreement as it is felt that a sudden cessation of work in the naval shipyards would have serious effects upon employment.

The U.S. note was in reply to an invitation extended by the League late in September, urging the 52 nations which are to take part in the general disarmament conference at Geneva in February to join an immediate arms truce calculated to further the success of that event as well as to relieve the nations of a heavy financial burden.

The league called upon the governments to state whether they are prepared to accept an armament holiday covering a period of one year from November last.

The nations were asked to promise in general terms "to refrain from any measure involving the production of their armaments." At the same time they are given opportunity to set forth in detail their understanding of what this would involve.

## Hinkler Sets 'Plane Record'

Puss Math Machine Used In 1800 Mile Flight

Kingston, Jamaica.—Bert Hinkler, Australian flyer, who once held the Australia-England flight record, landed here at the conclusion of a non-stop flight from New York. His time was 18 hours.

Toronto, Ont.—The flight of Bert Hinkler, noted Australian flyer, from New York to Kingston, Jamaica, set a new record for a Puss moth aeroplane, said V. O. Levick, superintendent of the De Havilland Aircraft Co. of Canada, Ltd.

The distance was about 1,800 miles. Previous record for a plane of that type, Mr. Levick said, was set by Amy Johnson, famed British aviator, recently, when she flew from London, Eng., to Warsaw, Poland, a distance of about 1,000 miles.

## Willing To Accept Shipments Next Year

Owners Of Ships Used In Bay Test Ready For Future Cargoes

Montreal.—The Montreal Gazette publishes the following despatch from its Ottawa correspondent:

"H. S. Daigle, Limited, of New-Castle-on-Tyne, owners of the 'Farnworth' and 'Warkworth,' the two vessels which took on their first wheat cargoes from Churchill this fall, have communicated to the Department of Marine here, their readiness to do business again next year if and when grain cargoes from the terminus of the Hudson Bay Railway are opened."

## Bartering Wheat For Coffee

Brazil Has Plan Which Was Submitted To United States

Chicago.—George S. Milner, president of the Grain Stabilization Corporation, has made public the plan of the coffee trade to dispose of 1,000,000 bags of coffee obtained recently from the Brazilian Government in exchange for 25,000,000 bushels of wheat. The plan, submitted by the National Coffee Growers' Association, would become effective in October, 1932. It provides for the sale to the highest bidder, of 62,500 bags of coffee each month thereafter.

## Fascist Celebrates

Rome, Italy.—Italy recently celebrated the ninth anniversary of the arrival of the Fascist march on Rome, which carried Benito Mussolini into the premiership and started the present Fascist regime.

W. N. U. 1914

## Western Farmers Benefit

Advance In Wheat Prices Estimated To Increase Revenue By \$10,000,000

Ottawa, Ont.—Western farmers will benefit to the extent of 8,000,000 or \$10,000,000 as a result of October advances in wheat prices, according to a rough estimate made by the Dominion Bureau of Statistics. The Bureau estimates that the increased prices may add from \$25,000,000 to \$30,000,000 to the value of wheat stocks held in all positions in Canada. In a statement prepared for Hon. H. H. Stevens, Minister of Trade and Commerce, the Bureau gives the cash closing prices of wheat at Winnipeg on October 1 and on October 21.

It is on the basis of this comparison that the Bureau estimates at more than \$8,000,000 the benefit to western farmers of advancing wheat prices. Increases are registered all along the line from No. 1 Manitoba hard to No. 1 and 2 tough Northern and No. 1 and 2 Durum. The average advance, states the Bureau, is about nine cents per bushel, or nearly double the bonus of five cents per bushel which is being paid.

"The farmers in the regions of high yields in central Alberta will benefit considerably since their threshing had been delayed and little grain sold as yet," the statement says.

"The average farmer in this region has about 65 acres of wheat, yielding about 25 bushels to the acre, and the increase means an extra \$450 to \$150 to him."

It is significant, the Bureau continues, that these advances in wheat prices were made during a period when deliveries of wheat were the heaviest of the season, "and thus the market was subjected to real bidding pressure most of the time."

## Lady Astor Gratified Over Her Re-Election

Says English People Always Respond To R.O.S. Call

Plymouth, Eng.—Lady Astor, re-elected as Conservative candidate for Plymouth, Sutton, was most gratified by the result of the voting.

"England is like a rock," she said. "You never say 'S.O.S.' to her people but they respond."

"Women have had a great deal to do with this election. They have common sense and common humanity. Although they long for paradise on earth it isn't so easy to attain, as the Socialists say."

## Ontario Town Is Destroyed By Fire

Entire Business District Of Port Carling Wiped Out

Port Carling, Ont.—Practically the whole business district of this town was wiped out by a fire of undetermined origin which broke out in the basement of the Hanna Company general store. Eleven buildings were destroyed.

"Every available fire-fighter was called out. Apparatus from Bracebridge, Gravenhurst and Collins, aided. No estimate of the damage was available."

## Soviets Disappointed

London, Eng.—News despatches from Riga credited Joseph Stalin, Soviet chief, with the statement that the British mentally is "incurable."

The Riga despatches also said that Stalin remarked reports from Communist agitators in Britain were unreliable.

## Five-Year-Old Voter

Belfast, North Ireland.—Five-year-old Ernest Motherwell voted in the British general election. In Ulster no one whose name appears on the register is barred from voting if he can articulate the name of a candidate, Ernest could.

## Comments By London Press

National Government Organs See Vote As Crushing Blow To Socialism

London, England.—National government organs are jubilant over the election result and generally described the overwhelming victory as a crushing repudiation of socialism.

The Daily Telegraph says, "The 'mensals of political folly and weakness has been with us and deadly. Leaders who betrayed their trust and a party that has been taught a lesson that will long be remembered."

The newspaper adds that the National Government has a majority far beyond its expectations and that the road is open for enterprise in setting the country on its feet, and leading it on a new path of progress and prosperity.

"The result is an absolutely shattering blow to Labor," comments the News Chronicle. "There has been nothing like this since 1918."

The Daily Mail attributes the government victory to a growing enthusiasm in Great Britain for tariffs and the determination of the working class to deal a death blow to 'predatory socialism.'

The Daily Express says the Socialist party is wiped out by the election result.

"The country has delivered its judgment in no uncertain terms upon the men who ran away," comments The Times.

## WANT EMPIRE MEET ARRANGED FOR EARLY DATE

Ottawa, Ont.—The Canadian Government will propose to the various governments of the empire that the imperial economic conference, the adjourning of which last August was postponed, meet at Ottawa "at the earliest possible date." This was the statement issued to the press by Rt. Hon. B. B. Bennett, the Prime Minister.

In his statement the Prime Minister expressed the hope that former difficulties surrounding the plan for holding the conference in the Canadian capital "had now been removed."

Mr. Bennett was asked whether, in his opinion, the return of the National Government in Great Britain would mean an early meeting of the imperial conference which, on motion of Canada at the London conference a year ago, was unanimously adjourned to meet at Ottawa "within the next few months."

"In reply," the Prime Minister authorized the following statement:

"As the suggested date of meeting was late found to be inconvenient, several of the governments concerned, a postponement became necessary. The Canadian Government earnestly hopes that the difficulties heretofore prevailing have now been removed, and it will immediately propose to the governments of the empire that the conference meet at Ottawa at the earliest possible date."

"This government is confident," continued the Prime Minister, "that the conference will achieve an enduring plan of closer economic association. The need for such an association was never more apparent. Canada will do its full share to bring it about."

## Blind Veteran Regains Seat

London, Eng.—Capt. Ian Fraser, the blind war veteran, who is chairman of St. Dunstan's school for the sightless and who lost his sight in 1929, when he sought re-election as Conservative member for the London borough of St. Pancras, has recaptured his seat, defeating his old opponent, R. Marley, Labor, and a Communist candidate.

## POLICY ENDORSED

Message To The Nation

London, Eng.—Prime Minister: Ramsay MacDonald issued a message to the nation, thanking millions of persons of all parties who for the moment, "subordinated party feelings and issues to the pressing national needs."

"A majority unique as it is gratifying, given today must always vindicate the whole world of what this country calls for assistance willing hands and devoted minds will always respond heartily," the message said.

"We appealed for a demonstration of national unity. The response has been far beyond the dreams of the most enthusiastic of us."

"To my political friends who have suffered such unusual reversals and especially to those of them who with splendid faith and courage backed our appeal and helped to swell our victory, give assurance that our triumph will in no way mean that either the interests or the point of view of the working class will be overlooked in the performance of the task before us."

## Warning Is Issued

Hon. H. H. Stevens Says That Canada Has Overlooked Its Own Interests

Toronto, Ont.—Canadians were too prone to regard business conditions in the Dominion with an attitude of pessimistic defeat, said Hon. H. H. Stevens, Federal Minister of Trade and Commerce, in an address here.

"The same time he issued a warning that Canada had 'overlooked' a 'same and reasonable perspective' would inspire satisfaction in the 'capacity of our country to adjust its population in comfort and plenty,' he declared, addressing the annual banquet of the Advertising Sales Round Table of Toronto.

## Leaves Fortune For Crippled Children

Detroit Mich.—Louis Reberg, elderly real-estate owner, gradually going blind, turned his entire fortune of \$300,000 over to the Detroit Board of Education for the benefit of crippled school children.

Half the income is to go to Reberg during his lifetime and half to be used to furnish crippled children with better educational and health facilities. After his death, income and principle are to be paid out for benefit of crippled children.

## Officials Silent Over Seizure Of Airplane

No Information Given Regarding Capture Of U.S. Machine

Ottawa, Ont.—Officials of the customs department were reticent with regard to the seizure of a United States plane, which was taken in custody when its operators were loading it with liquor in a field near Appleton, Que. Two machines of the Royal Canadian Air Force, transporting customs preventive officers, effected the capture.

The plane is reported to have come from Rochester, N.Y., and is said to have made several trips here recently.

## Newspaper Strike Strikes

Mexico City.—Failing to accede to employees' demands that back salaries, said to total about \$12,000, be paid immediately, the newspaper plant of El Universal, one of the two leading morning newspapers, was closed by an employees strike.

## New Cabinet Formed

Asuncion, Paraguay.—Provisional President Gonzalez Navarro formed a new cabinet to continue the Liberal party's administration of Paraguay, retaining Foreign Minister Zubizarreta and Minister of Justice Gonzalez.

## Message To The Nation

Ramsay MacDonald Refers To Response To Call For National Unity

London, Eng.—Prime Minister: Ramsay MacDonald issued a message to the nation, thanking millions of persons of all parties who for the moment, "subordinated party feelings and issues to the pressing national needs."

"A majority unique as it is gratifying, given today must always vindicate the whole world of what this country calls for assistance willing hands and devoted minds will always respond heartily," the message said.

"We appealed for a demonstration of national unity. The response has been far beyond the dreams of the most enthusiastic of us."

"To my political friends who have suffered such unusual reversals and especially to those of them who with splendid faith and courage backed our appeal and helped to swell our victory, give assurance that our triumph will in no way mean that either the interests or the point of view of the working class will be overlooked in the performance of the task before us."

## Less Emigration To U.S.

Fewer Visas Are Issued To Canadians, Says Report

Washington, D.C.—Only 1,000 Canadians received immigration visas for admission into the United States during September, compared with 6,151 in the corresponding month in 1928.

The figures as announced at the state department reflect a decrease of 84 per cent. September, 1928, was used for comparison as it was the corresponding month of the last normal fiscal year.

The figures, the state department says, show the large reduction in the number of immigration visas issued to residents of Canada since the enforcement by United States consuls of the law which prohibits the free charge provision of the Immigration Act of 1917.

## NATIONALISTS' VICTORY SETS A NEW RECORD

Dr. Warburg, Of Germany, Is Winner This Year

Stockholm, Sweden.—Dr. Otto H. Warburg, German physician and biologist, has been awarded the Nobel prize in medicine for 1931.

Four years ago Dr. Warburg won the Nobel prize in chemistry for his work on the catalytic action of enzymes. He is also a member of the Swedish Academy of Sciences.

Dr. Warburg is a member of the German Reichstag and has been active in the affairs of Palestine and at one time headed the German League of Nations.

Last year's Nobel prize was awarded to Dr. Karl Landsteiner, who is connected with the Rockefeller Institute in New York. Dr. Landsteiner has gone to a German four times.

## Pensions Cost Ontario Thirty Thousand Daily

Amount Expended For Old Age and Invalid Pensions

Toronto, Ont.—Ontario is spending \$30,000 a day for old age pensions and mothers' allowances, Hon. G. W. Martin, Minister of Public Welfare for the province, said to the National League of Compulsory Education officials in convention here.

Mother's allowances cost \$230,000 a month, but benefit 6,000 homes and enabled 18,000 children to get an education and went far to solve the problem of juvenile delinquency, he said.

## Relief Pours In

Toronto, Ont.—Close to 80 carloads of fruit and vegetables—66 from Ontario and 14 from British Columbia—have gone or are going to southern Saskatchewan and other southern drought-stricken areas of western Canada under the direction of the national emergency relief committee of the United Church of Canada. This was reported by Rev. R. H. Cochrane, chairman.

## Chosen As President

Regina, Sask.—Hon. J. D. McCreigh, ex-Lieutenant-Governor of Manitoba, was elected president of the newly formed Dominion Agricultural Credit Company, organized for the advancement of livestock activities in the western provinces. At the first meeting of the organization held at the Hotel Saskatchewan.

## Japan Accepts Plan

London, Eng.—A Russian's agency despatch from Tokyo said that Japan has accepted the League of Nations plan for a year's holiday on armaments on condition it does not accept any which destroyed it and that neighboring states, especially non-members of the league also agree.

## BISHOP SEES GREAT FUTURE FOR DOMINION

London, Eng. Rt. Rev. Arthur Foley Winnington-Ingram, Bishop of London, writing of his recent visit to Canada in the "Empire Review," suggests "If the \$200,000,000 spent upon keeping people unemployed in England could be spent in developing Canada, there would be something to show for it, and something which would permanently benefit the world in general."

The bishop writes that what impressed him most on his tour was that Canada would never become the great nation it should be without a far larger population.

"It is all laid out for a great population," he writes. "The railway system will never pay without millions more travelling. Of course the people will be gradual and as the nation can absorb it, Canada might be, and may be, the greatest nation upon earth," he writes. "She strides the earth at a most strategic point of the earth's surface. She has undeveloped riches beyond count. All that is needed is men, boys and girls to unearth the fullness of her life, and the majority of them would be British-born."

"Let Canada not be narrow minded," the bishop continues. "Let her open her arms to all honest workers from all lands, but do not let them crowd out the old British stock. She is bound to the red strand of blood and sacrifice, the white strand of pure home life, and the blue strand of commercial honesty and integrity."

"Let the code never be broken," he writes in conclusion, "and if it is a firm and if, in ever increasing numbers, we go over from the Old Dominion to the New, the Canada of today is a step ahead in developing her strength, then the Canada of the future, great as it is, will be nothing to the Canada of tomorrow."

## Nobel Prize Awarded To Cancer Specialist

Dr. Warburg, Of Germany, Is Winner This Year

Stockholm, Sweden.—Dr. Otto H. Warburg, German physician and biologist, has been awarded the Nobel prize in medicine for 1931.

Four years ago Dr. Warburg won the Nobel prize in chemistry for his work on the catalytic action of enzymes. He is also a member of the Swedish Academy of Sciences.

Dr. Warburg is a member of the German Reichstag and has been active in the affairs of Palestine and at one time headed the German League of Nations.

5 Cents per Loaf!

For one loaf or a hundred. We retail Bread and Flour at Wholesale Prices. This don't please a few but it sure pleases many.

We thank you for your liberal encouragement since we came here —two years ago—when the same sized loaf of Bread was selling at 15c per loaf, or 2 for 25c. Same difference, we would say!

Think This Over. 'Nuff said. Respectfully,
